The horses of Sable Island-they are a romantic and enduring symbol of the will to survive in an unforgiving environment. Hundreds of these wild horses live on the windy beaches and dunes of this remote island known as the graveyard of the Atlantic off the shores of Nova Scotia. Free as the Wind is Jamie Bastedos re-creation of one of the most fascinating episodes in the history of these wild creatures: the moment in the early 1960s when it was decided the horses would be removed from the island and auctioned off, many of them slaughtered for dog food. School children across the country wrote Canadas then Prime Minister, John Diefenbaker, pleading with him to restore the horses to the island, to save them from certain death. This fictional account of that pivotal moment in Canadas history follows young Lucas Beauregard, son of the retiring superintendent of Sable Island, as he befriends and then plots to save Gem, one of the horses of Sable Island. The horses of Sable Island are a national treasure, not only because their history dates back as early as the settlement of Canada, but also because their continued survival showed the world that children can make a difference. Susan Tookes sparkling paintings capture the spare but magnificent terrain of Sable Island in a way that will captivate readers of all ages.
