

Particularlt during the last fifteen months, the author has received letters from both ladies and gentlemen of education, respectability, and influence in this country; all more or less concerning the causes of the wonderful phenomena recently unfolded by what are commonly termed mysterious noises. He could, not promptly respond to the numerous questions of these correspondents for two 1st. He has been engaged for several months in an interior investigation respecting the nature and mode of the Divine Existence; and while absorbed in these researches, it is both painful and injurious to allow foreign subjects or trains of thought to break in upon that concentration of mind which is essential to his Superior Condition. 2d. Prior to the writing of this work, the author had not particularly and interiorly investigated or surveyed the whole field occupied by these mysterious phenomena, sufficiently to pronounce an intelligent and reliable judgment upon their merits or demerits. Neither had he examined the subject with any special reference to its real or apparent connection with the teachings and developments of the Harmonial Philosophy. In order to properly answer all the letters and questions of his esteemed correspondents aright, the author has been impressed to turn aside from the great subject of his investigations, which are designed for the second volume of The Great Harmonia, and write and prepare the ensuing pages for publication; they contain the author's Interior Impressions concerning the philosophy of spiritual intercourse, in its limited and broadest sense. His impressions are particularly addressed to the reader's understanding. The exceeding happiness which the revelations of the harmonial philosophy have imparted to hundreds of minds in the United States, is a source of lasting satisfaction to those who labor for its dissemination and application.
